- **Analytical Pro:** Proven ability to decipher complex project challenges.
- **Attention to Detail:** Your attention to detail sets you apart.
- **Dynamic Worker:** You thrive in an environment where you juggle diverse projects, requiring you to change focus quickly.
- **Communicator:** You feel comfortable having conversations with diverse stakeholders.

What You'll Get to Do:

- **Engineering Projects & Strategy:** Contribute to the planning and execution of large-scale industrial projects across New Zealand.
- **Specialised Consultation:** Grow your skills to provide expertise in areas such as seismic engineering, pressure equipment, piping, mechanical design and equipment selection.

- **Reports & Calculations:** Undertake technical calculations and check drawings that support the preparation and delivery of reports.
- **Technical Mastery:** Experience with technical and analytical software such as AutoPipe, Nozzle Pro, Meca Stack, S-Frame, Idea Statica, AutoCAD, Inventor / SolidWorks and Ansys.

Why Choose Dobbie Engineers?

- **Industry Competitive Salary:** A salary that reflects your skills and impact.
- **Career Advancement:** Comprehensive professional development program tailored to your needs and career aspirations.
- **Continuous Learning:** Allocated budgets for specialised training and industry events.
- **Financial Wellness:** Above-market 4% KiwiSaver contribution and paid professional memberships.
- **Health & Wellbeing:** Your health is a priority; enjoy our subsidised healthcare.
- **Flexibility:** Tailored working arrangements to suit your lifestyle.
