

# Senior Structural Engineer

**STRUCTURAL FOR MECHANICAL | TAKAPUNA BASED**

Do you want to work for a leading NZ Mechanical Engineering Consulting Business that recognizes the importance of work / life balance, in a location where you can take your lunch break walking along Takapuna beach, enjoy the many local cafes or make use of gyms?

Dobbie Engineers are an award-winning consultancy, providing first class engineering solutions to clients throughout New Zealand. With offices in Auckland and Rotorua they are involved in a variety of medium to large challenging projects across various industrial process sectors including Dairy, Food and Beverage, Geothermal, and Timber processing.

This role is to support the mechanical team with the design of structures for the mechanical projects Dobbie is involved with.

**An ideal candidate would possess:**

- Bachelor of Structural Engineering with at least 10 years experience
- Chartered Professional Engineer (CPEng)
- Strong analytical skills with attention to detail
- Practical approach to design
- A desire to visit industrial plants and construction sites
- Experience with the structural design in industrial plants including experience with pressure equipment and piping, materials handling equipment
- Ability to work in a team environment, wanting to grow technically and professionally

Naturally you will be a team player with proven communication skills and have the ability to build strong relationships. If this sounds like you, then we are interested in talking to you.

**Applicants for this position must have NZ residence or a valid NZ work permit.**

**Please submit your CV to [careers@dobbie.co.nz](mailto:careers@dobbie.co.nz).**
